2. The cables are color-coded (black, red, white, and yellow). Connect each color-coded cable to the appropriate connector on your device.

Connecting the Power Adapter

Power outlet

Power cord

DC-IN

Power adapter

1. Connect the power cord to the power adapter as illustrated.
2. Plug the power adapter connector into the DC-IN input jack on the rear panel of the TV.
3. Insert the three-pronged plug at the other end of the power cord into a power outlet.

Note :
Images are for illustration only and may vary by model or region.

A/V and Channel Setup

Selecting A/V Sources

1. Make sure your TV is turned on and a device such as a DVD player is connected.

2. Press the **SOURCE** button on the control panel to select different source signals. TV channel number, AV or AVs appear on the screen.

Note : AVs only appears on the screen when S-Video is connected.
